

The First E-Mit Newsletter

Dear subscribers and E-Mit members. It is with pleasure that we are sharing **our first official newsletter**.

E-mit, the European Society for Mitochondrial Research and Medicine, is a multidisciplinary organisation focused on the promotion and development of scientific research in the field of Mitochondrial Biology and Disease and aspire to the dissemination of the Scientific Culture.

This space will allow us to share news and upcoming events related to the mitochondrial biology and medicine research community, as well as highlighting the work that E-Mit is doing in creating productive collaborations between scientists from all over Europe and the world. Our aim is to foster a new generation of scientists committed not only to scientific progress, but also to patient's health, and the creation of an inclusive and equal research community.

We will regularly share news that we believe is relevant to our mission, including **special upcoming events** - like the very much anticipated first ever Winter School in Mitochondrial Biomedicine - and the upcoming scientific conferences happening all over the world. We will also run **short interviews** with mitochondrial researchers and **promote the work of the global mitochondrial patient organizations**. But first and foremost, our goal is to include content that YOU think is valuable to our vibrant community, so please reach out to us with any ideas and to collaborate with us.

**WORLD
MITOCHONDRIAL
DISEASE WEEK**

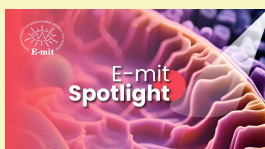

World Mitochondrial Disease Week 2023

Every September sees the mitochondrial community come together during World Mitochondrial Disease Week and this year we were delighted that E-Mit was able to take part in the remarkable global effort for the first time.

E-Mit: Social Media Presence

Our team is working to create a social media presence for E-Mit. Please consider following our [E-Mit X account](#) (shoutout to Dr. Dario Brunetti) and our recently created [LinkedIn page](#) (shoutout to Dr. Gloria Brea Calvo). We will be starting to use these platforms regularly to share content and news, as well as recent scientific findings and images from the mitochondrial research world.

Cure Mito Foundation

As part of our

Mitochondrial Biomedicine

Interview of the Month

This month we have

commitment at E-Mit to engage all key stakeholders involved in the field of mitochondrial research and medicine, we would like to shine a spotlight on the mitochondrial patient organizations across the globe. This month we are shining a light on the **Cure Mito Foundation**.

Winter School

The 2024 Mitochondrial Biomedicine Winter school will be held in person from January 28th to February the 2nd at the Grüner Baum Hotel in Bressanone, Italy.

interviewed Marco Tigano, Ph.D., E-mit board member and Assistant Professor, Department of Pathology & Genomic Medicine at the Thomas Jefferson University of Philadelphia.

Mitochondrial Biology and Medicine Upcoming Conferences

Mark your calendars for the next international meetings.

[Membrane Contact Sites](#)

Cancun, Mexico, February 08-11, 2024

Poster abstract and registration, January 15, 2024

[2024 Biophysical Society](#)

Philadelphia, USA, February 10-14, 2024

Late abstract and registration, January 4, 2024

[Mitochondria Signaling and Disease Conference](#)

Banff, Alberta, Canada, February 12-15, 2024

Early Registration December 13th, 2023

[Mitochondrial Medicine - Therapeutic Development](#)

Hinxton, Wellcome Genome Campus, UK, March 18-20, 2024

Abstract deadline January 23, 2024

Registration deadline February 20th, 2024

Meet E-Mit board members [Dr. Rita Horvath](#), [Dr. Michelangelo Mancuso](#) and [Dr. Lyndsey Butterworth](#) here!

This is a special Newsletter, and you are receiving it because you are an active member of E-Mit, or a scientist engaged in mitochondrial research. Please contact us if you do not wish to receive this anymore or you think we made a mistake.
